

**24V / 350A**

**PAD Mount**

**Ductless**

**Part Number: AA205**

**Ductless with noise suppression filter**

## HEAVY DUTY BRUSHLESS ALTERNATOR

- The compact Heavy Duty brushless alternator, is an innovative power generating system, best suited for applications demanding high output at low rpm.
- Thanks to the progressive hairpin stator technology and the high precision assembly process, this alternator is capable of reaching efficiency levels of over 85%.
- The impressive output at engine idle makes this alternator a natural choice for a wide range of transit vehicles.

- High output at @2000 RPM
- Hairpin Stator
- High Efficiency over 85,0 %
- Low Inertia Advantage
- Low RPM Turn On

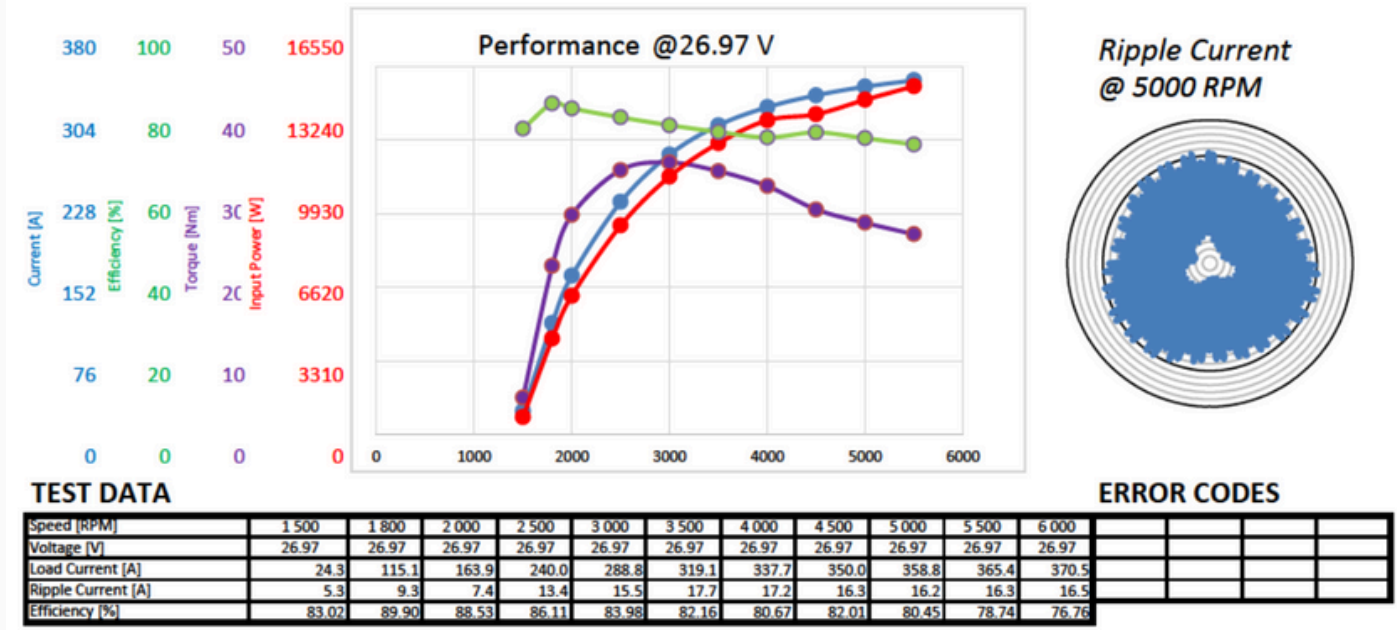

- Air Cooled Alternator
- Robust construction
- Easy Installation
- Long bearing life
- Industry Std Mounting & Electrical Interface
- Ground isolated

### Applications

- **Transit Bus • Construction • Fire & Rescue • Agriculture • Military • Mining**
- **Marine & Rail (E.I.P. Compliant)**

## Performance Curve

## Specifications

System Voltage	24V	Mounting	PAD Mount
Rated Output:	350A	Speed limits:	8000 RPM
Output @ 2000 rpm:	350A	Weight:	24 kg
Temperature limits:	-Low: -40°C / -High: 125°C	Regulator:	Remote
Turn on speed:(RPM)	1200	Rotation:	Both. CCW fan is optional

## Connections
