

28V / 350A

Cradle

Ductless

Part number: AA100-221711-265

Ductless without noise suppression filter

HEAVY DUTY BRUSHLESS ALTERNATOR

- The compact 25AT design Heavy Duty brushless alternator, Is an Innovative power generating system, best suited for applications demanding high output at low rpm.
- Thanks to the progressive stator technology and the high precision assembly process, this alternator is capable of reaching efficiency levels of over 86%.
- The impressive output at engine Idle makes this alternator a natural choice for a wide range of transit vehicles.

- High output at @2000 RPM
- High Efficiency over 86 %
- Low Inertia Advantage
- Low RPM Turn On
- Superior Air Cooled Alternator

- Robust construction
- Easy Installation
- Long bearing life
- Industry Std Mounting & Electrical Interface
- Ground isolated

Applications

- Transit Bus • Construction • Fire & Rescue • Agriculture • Military • Mining
- Marine & Rail (E.I.P. Compliant)

Performance Curve

STABILIZED @ 23 °C (73 °F) SAE J56

Specifications

System Voltage	24V	Mounting	Cradle Style
Rated Output:	440A	Speed limits:	6500 RPM
Output @ 2000 rpm:	260A	Weight:	44 kg
Temperature limits:	-Low: -40°C / -High: 125°C	Regulator:	Remote
Turn on speed:(RPM)	1200	Rotation:	CW

Connections
